Yeastar Information Technology Co. Ltd.

Register Zoiper on Windows

Register Zoiper on iPhone, iPad and Android

Zoiper is a softphone which runs on Windows, Mac OS X, Linux, iPhone, iPad and Android devices. MyPBX VoIP extensions can be registered on Zoiper. Please follow the steps to register your extension.

Register Zoiper on Windows

Step 1. Download

(http://www.zoiper.com/download.php?os=Windows&ap=z2&location=zoi per free 2 installer exe) and install Zoiper on your Windows PC. Step2. Right click the mouse on Zoiper Panel and select "Options" to enter the accounts page. Click "Add New SIP Accounts" to add a SIP account. Name of the account can be customized.
